REDBOX	RedBox Condensate Pump	EA	6

Multi-Fit Plug

A multi-fit plug system allows you to easily replace pumps in existing installations. Easily retrofits to existing / installed non-DiversiTech condensate pumps. Simply unplug the old / failed pump, and plug in a new DiversiTech RedBox™

Metal Hang Tabs

Shatterproof stainless steel hang tabs have hole-and-slot design for easy mounting. Tabs are located on convenient 20cm centers.

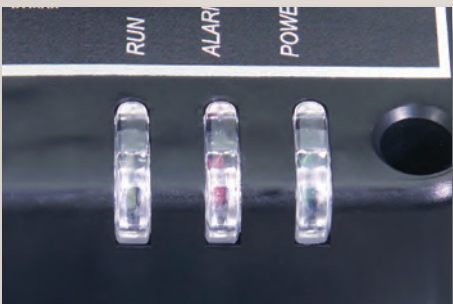

Four Inlet Holes

Four inlets versus two or three on other pumps provide the greatest installation versatility. Inlet holes have a reinforced wall for durability.

Anti-Vibration Feet

Rubber feet dampen vibration which reduces noise.

Indicator Lights

Red, yellow, and green indicator lights show the pump status. Green for power, yellow for pump running, and red for high level alarm.

Check Valve

Removable check valve for easy cleaning.

A Float that Floats

RedBox uses a special float made from foamed polyethylene that is chemically and environmentally resistant and long lasting. The RedBox float simply floats and will provide years of dependable service.

Reversible Deck

The top deck of RedBox is reversible to allow for flexibility during installation.
