

# The Spherical Double Foot

## the solution for all roof installations

100% UK Manufacture

The Spherical Double foot is a quick, versatile and economical solution for supporting anything on your roof from pipe work, ductwork, cable trays, H frames, air conditioning equipment, plant rooms or any combination of these.

You provide your own strut, keeping the installations low cost and totally flexible by fabricating the frameworks on-site.

This strong, versatile, unbreakable foot is supplied with a 80mm x 40mm Double Core allowing you to either insert double struts or steel box sections.

Back to Back  
Strut into one  
foot

For joining 2 x  
adjustable  
frames together

For joining 2 x  
non adjustable  
frames together

### Material Specification
