

# Standard Frames

## standard fixed height frames

Our Non Adjustable frames offer a simple solution for mounting plant on flat roofs. The frames are made from 40mm x 40mm galvanised box section giving you a very durable system.

The frames come in a full range of widths from 600mm to 2metres utilising a common 1.2metres long sliding mounting.

With our unique double socket foot it is easy to join 2 modules together if a larger system is required onsite

The common rails are locked into position using 2x M8 Nuts & Bolts, which creates a simple clamping action

Standard Fixed Frames

Product Code	Model	Length (mm)	Height Inc foot (mm)
COMBI 20	600 Rigid Frame	680	335
